Free Inquiry in Creative Sociology: Sociologists convey discoveries, ideas & research findings to students, colleagues & lay readers interested in social processes. Policy objectives: readability, creativity, diversity, & economy. READABILITY demands persuasive, interesting & lucid writing understandable to the literate layperson. It is lively enough to sustain interest & sufficiently supported with evidence & logic to convince the skeptical reader. CREATIVITY demands inventive, innovative & venturesome approaches to problems, propositions, questions, structures, data sets, theory, & social phenomena. Strange creatures are welcome if their outlines are clear. DIVERSITY calls for a persistent spread of material in all areas of sociology, giving voice to all fields, positions & technologies. We encourage sociologists in micro-, & macro-sociology. Cross-cultural studies and manuscripts from foreign authors are most welcome.
