

## **VIII. FOSSIL VERTEBRATE FRAGMENTS FROM THE PERMIAN FROM MORRISON, OKLAHOMA**

**By A. H. Koschmann.**

This is to put on record that considerable fossil vertebrate material is found approximately 300 feet north of the S. E. Cor. of Sec. 18, T. 21N. R. 3E., in the road ditch on the east side of the road. It is about one half mile southeast of Morrison, Oklahoma. Stratigraphically the fragments are found about 350 to 400 feet above the Neva limestone in the Permian formation.
