

THE TREMATODES OF REPTILES, PART II, HOST CATALOGUE*

R. CHESTER HUGHES, JOE W. HIGGINBOTHAM, and
JASPER W. CLARY, Stillwater

The first article (Hughes, Higginbotham, and Clary 1941) in this series of compilatory studies comprises a "Systematic Section" in which the species of reptilian flukes are listed in taxonomic outline, being grouped in subclasses, orders, superfamilies, families, subfamilies, and genera. The original dates and authors of all trematode scientific names and generic recombinations of specific names are cited. Complete synonymies are given for valid specific names. The hosts and general geographic distribution, in so far as they could be determined from published sources, are indicated for each species. According to present plans later papers of the series will contain (1) an annotated index of the trematode specific names, valid and invalid; and (2) an extensive bibliography of the more recent relevant literature.

The writers are gratefully indebted to Mr. Arthur Loveridge of the Museum of Comparative Zoology (Harvard College) and Dr. Karl P. Schmidt of the Field Museum of Natural History (Chicago) for a great deal of information and advice concerning synonymies and the taxonomic arrangement of the reptilian names listed below.

In the ensuing catalogue the names of the flukes are listed after the names of their respective reptilian hosts. The latter are grouped into families, suborders in the case of Squamata, and orders according to the taxonomic scheme in current usage in *Biological Abstracts*. It should be noted that many of the trematodes listed have been recorded from nonreptilian hosts. Indeed, certain of them occur only as larvae in reptiles, requiring some other type of animal for the definitive stage. Nonreptilian hosts, not considered further in this paper, are briefly dealt with in connection with the several species concerned in the above-mentioned part I of the series. Sources of individual host records, not cited here, are also given in part I.

Class REPTILIA
Order LORICATA
Family ALLIGATORIDAE

Alligator mississippiensis.—*Acanthostomum coronarium*, *A. diploporum*, *Crocodylicola pseudostoma*, *Odhneriotrema incommodum*, *Polycotyle ornata*.

Catman crocodilus.—*Acanthostomum marajoarum*, *Cystodiplostomum hollyi*, "Diplostome" medusae, *Distoma pygidatum*, *Echinostoma jacarétinga*, *Herpetodiplostomum caimancole*, *Odhneriotrema microcephala*, *Pachypsolus selerops*, *Paradiplostomum abbreviatum*, *Prolecithodiplostomum cavum*, *P. constrictum*, *Proterodiplostomum tumidulum*.

Catman latirostris.—*Cystodiplostomum hollyi*, *Herpetodiplostomum caimancole*.

"*Crocodylus coroa*".—*Proterodiplostomum longum*.

"*Crocodylus*" spp.—*Crocodylicola pseudostoma*, *Paradiplostomum abbreviatum*, *Proterodiplostomum longum*.

* Contribution No. 84 from the Zoological Laboratory, Oklahoma Agricultural and Mechanical College.

Malanosuchus niger.—*Herpetodiplostomum calmancola*, *Mesodiplostomum gladiolum*, *Proterodiplostomum longum*.

Family CROCODYLIDAE

Crocodylus acutus.—*Acanthostomum coronarium*.

Crocodylus cataphractus.—*Neodiplostoma* sp. Dollfus 1935.

Crocodylus johnstoni.—*Acanthostomum quacatum*.

Crocodylus niloticus.—*Acanthostomum productum*, *A. vicinum*, *Allechinostomum crocodili*, *Oyathocotyle fraterna*, *Distoma bifurcatum*, *Nephrorhynchus sessilis*, *Stephanoprora ornata*.

Crocodylus porosus.—*Acanthostomum atae*, *A. elongatum*, *Harmotrema rudolphii*, *Neodiplostomum crocodilarum*.

Crocodylus stamensis.—*Allechinostomum crocodili*, *Pseudoneodiplostomum stamense*.

"Krokodil"—*Oistosomes caduceus*.

Osteolaemus tetraspis.—*Pseudoneodiplostomum thomasi*.

Family GAVIALIDAE

Gavialis gangeticus.—*Crocodylicola gavialis*, *Ezotidendrium gharialii*, *Harmotrema nicollii*.

Order SQUAMATA

Suborder SAURIA

Family AGAMIDAE

Agama agama.—*Mesocoelium monodi*.

Agama planiceps.—*Mesocoelium monodi*.

Calotes calotes.—*Paradistomum excalotes*.

Calotes versicolor.—*Paltrema macrorchis*, *Paradistomum moghei*.

Ceratophora stoddarti.—*Paradistomum ceratophorae*.

Draco volans.—*Pintneria mesocoelium*.

Hydrosaurus pustulosus.—*Paradistomum paloensis*.

Uromastix acanthinurus.—*Ommatobrephus singularis*.

Uromastix hardwickii.—*Paradistomum indicum*, *Paryphostomum indicum*, *Testisaculus indicus*.

Family AMPHISBAENIDAE

Amphisbaena alba.—*Pneumotrema travassosi*.

Amphisbaena sp.—*Distoma monas*.

Family ANGUIDAE

Anguis fragilis.—*Agamodistomum anguis*, *Brachycoelium salamandrae*.

Celestus pleii.—*Mesocoelium dansforthi*.

Ophisaurus ventralis.—*Brachycoelium salamandrae*.

Family CHAMAELEONTIDAE

Chamaeleo basiliscus.—*Anchitrema sanguineum*, *Lectithodendrium obtusum*, *Plagiorchis ramitanus*, *Pleurogenoides tener*.

Chamaeleo chamaeleon.—*Anchitrema sanguineum*, *Plagiorchis ramitanus*, *Pleurogenoides medians*.

Chamaeleo dilepis.—*Anchitrema latum*.

Chamaeleo gracilis.—*Mesocoelium monodi*.

Chamaeleo spp.—*Anchitrema sokolovi*, *Laureriella lateriporus*, *Lectithodendrium hirsutum*.

Family CORDYLIDAE

Cordylus cordylus.—*Paradistomum sonari*.

Family GEKKONIDAE

Gekko gekko.—*Paradistomum geckonum*.

Hemidactylus brooki.—*Paltrema macrorchis*.

Hemidactylus flaviviridis.—*Paradistomum orientalis*.

Hemidactylus frenatus.—*Paradistomum gregarium*, *Postorohigenes ovatus*.

Hemidactylus gleadowii.—*Paradistomum gregarium*.

Tarentola mauritanica.—*Paradistomum mutabile*.

Family IGUANIDAE

Anolis carolinensis.—*Allopharynx multispinosus*.

Iguana iguana.—*Helicotrema asymetrica*, *H. magniovatum*, *H. spirale*, *Pulchrosomoides elegans*.

Iguana sp.—*Distoma armatissimum*.

Family LACERTIDAE

Lacerta agilis.—*Distoma megaloon*, *Paradistomum mutabile*, *Plagiorchis mentulatus*.

Lacerta muralis.—*Cercoleoithos molini*, *Distoma arrectum*, *D. nardoi*, *D. simplex*, *Paradistomum mutabile*, *P. mentulatus*.

Lacerta viridis.—*Distoma arrectum*, *Plagiorchis mentulatus*.

Lacerta vivipara.—*Plagiorchis mentulatus*.

Family PYGOPODIDAE

Delma fraseri.—*Paradistomum crucifer*.

Family SCINCIDAE

Eumeces chinensis.—*Pharyngostomum cordatum*.

Eumeces fasciatus.—*Mesocoelium americanum*.

Eumeces latiscutatus.—*Mesocoelium brevicacum*.

Leiopisma unicolor.—*Brachycoelium salamandrae*, *Mesocoelium americanum*.

Mabuya dissimilis.—*Mesocoelium meggitti*, *Paradistomum magnum orotermiosum*.

Mabuya maculilabris.—*Mesocoelium monodi*.

Mabuya multifasciata.—*Mesocoelium meggitti*.

Mabuya stamensis.—*Lecithodendrium* sp. Joyeux and Houdemer 1928, *Paradistomum mutabile*.

Riopa fernandi.—*Mesocoelium monodi*.

Tiliqua scincoides.—*Mesocoelium microon*, *Tetracotyle tiliquae*.

Trachysaurus rugosus.—*Paradistomum maccallumi*, *P. trachysauri*.

Family TEIIDAE

Tupinambis teguixin.—*Eurytrema travassosi*.

Family VARANIDAE

Varanus bengalensis.—*Ommatobrephus lobatum*, *Tremiorchis varanum*.

Varanus griseus.—*Tremiorchis varanum*.

Varanus noticus.—*Cyclorchis varani*, *Styphlodora serrata*.

Varanus salvator.—*Euparadistomum varani*.

Suborder SERPENTES

Family BOIDAE

Constrictor constrictor.—*Styphlodora horrida*, *Zoogonoides boae*.

Esnectes murinus.—*Glossidicella ornata*, *Glossidium loossi*, *Infidum infidum*, *Microderma lueketi*, *Telorchis clavus*.

Family BOIGIDAE

Oloella cloella.—*Telorchis clavus*.

Erythrolamprus venustissimus.—*Ochetosoma monstruosum*.

Leptodeira annulata.—*Neorentifer formosum*.

Oxyropus fasciatus.—*Telorchis clavus*.
Philodryas schottii.—*Opisthogonimus afrantoi*, *O. interrogativus*, *O. philodryadum*, *Paradistomum magnum*.
Thelotornis kirtlandii.—*Opisthoglyphe magnus*.

Family COLUBRIDAE

Chironius carinatus.—*Opisthogonimus afrantoi*.
Chironius fuscus.—*Catadiscus dollichocotyle*, *Leptophyllum stenocotyle*.
Coluber constrictor.—*Neorenisfer georgianus*, *Renifer* sp. Job 1917, *Styphlodora bascaniensis*, *S. compactum*, *Telorchis clavus*.
"Coluber errio".—*Opisthogonimus philodryadum*.
Coluber gemonensis.—*Distoma daralddi*, *Encyclometra colubri-murorum*, *Macrodera longicollis*, *Neorenisfer validus*.
Coluber hippocreptis.—*Ratsia parva*.
Coluber spp.—*Distoma incerta*, *Heterodiplostomum lanceolatum*, *Ophiostomum spectabile*, *Petalodiplostomum ancyloides*.
Dromicus hoodensis.—*Infidum luckeri*.
Drymobius bifasciatus.—*Infidum similis*, *Ophiostomum spectabile*.
Drymarchon corais.—*Neorenisfer drymarchon*, *Renifer grandispinus*, *R. magnus*.
Elaphe olivaceophora.—*Proalarioides serpentis*.
Elaphe quadrivirgata.—*Encyclometra japonica*, *Mesocoelium breviccaecum*, *Proalarioides serpentis*.
Elaphe quatuorlineata.—*Neorenisfer sauromates*.
Elaphe radiata.—*Pharyngostomum cordatum*.
Farancia abacura.—*Dasymetra provittelaria*, *Stomatrema guberletii*, *S. pusilla*, *Telorchis auridistomi*, *Vitellostrema fusipora*.
"Garter snake".—*Pneumatophilus variabilis*.
Grayia emythii.—*Harmotrema infecundum*.
Heterodon contortrix.—*Neorenisfer antiarum*, *N. elongatus*, *N. heterodontis*, *N. serpentis*, *N. validus*, *N. zachokkei*, *Renifer ellipticus*.
Lampropeltis getulus.—*Lechriorchis abduicens*, *Neorenisfer septicus*, *Pneumatophilus simplex*.
Liophis merremii.—*Opisthogonimus megadothrium*, *Travtrema travtrema*.
Natrix chrysarga.—*Diplodiscus conicum*, *Encyclometra colubri-murorum*, *Leptophallus nigrovenosus*, *Macrodera longicollis*.
Natrix cycloptera.—*Dasymetra villicaeca*, *Neorenisfer antiarum*.
Natrix erythrogaster.—*Neorenisfer antiarum*.
Natrix grahamii.—*Telorchis pseudoaculeatus*.
Natrix natrix.—*Cephalogonimus* sp. Lühe 1911, *Distoma acervocalciferum*, *D. assula*, *D. cloacicola*, *D. gracillimum*, *Encyclometra colubri-murorum*, *Haltipegus keasleri*, *Leptophallus nigrovenosus*, *Macrodera longicollis*, *Plagiorchis mentulatus*, *Strigea strigis*, *Sisidatta joyeuxi*, *Telorchis ercolanti*.
Natrix piscator.—*Atrophecaecum burminis*, *Encyclometra asymmetrica*, *E. colubri-murorum*, *Gogatea serpentum*, *Macrodera cantonenensis*, *Mesocoelium loiperi*, *Pharyngostomum cordatum*, *Proalarioides tropidonotis*, *Styphlodora persimilis*, *Travassostomum natrixis*, *Xenopharynx piscator*.
Natrix rhombifera.—*Dasymetra conferta*, *D. villicaeca*, *Lechriorchis megasorchis*, *Neochasmus labeosus*, *Neorenisfer acstabularis*, *N. antiarum*, *N. wardi*.
Natrix septemvittata.—*Orepidostomum serpentinum*.
Natrix sipedon.—*Cercaria ramonae*, *Dasymetra conferta*, *D. longicollis*, *D. nicolli*, *D. villicaeca*, *Lechriorchis primus*, *Natriodera volatum*, *Neorenisfer antiarum*, *N. orula*, *Paralechriorchis natrixis*, *Pneumatophilus foliaformis*, *P. leidyi*, *P. variabilis*, *Styphlodora magna*, *S. natrixis*, *Tetracotyle serpentis*.
Natrix stolata.—*Encyclometra asymmetrica*, *Pharyngostomum cordatum*.
Natrix tasleplota.—*Leptophyllum ovale*.

Natrix tessellata.—*Allopharynx amudariensis*, *Plagiorchis mentulatus*, *Telorchis ercolanti*.

Natrix tigrina.—*Encyclometra japonica*.

Natrix trianguligera.—*Allopharynx tropidonoti*.

Natrix viperina.—*Astiotrema monticellii*, *Saidatia joyeuxi*, *Telorchis ercolanti*.

Ophedrys aestivus.—*Brachycoelium salamandrae*, B. sp. Harwood 1932.

Ptyas dipsas.—*Halipegus dubius*.

Ptyas korros.—*Encyclometra asymmetrica*, *Ptyasorchis mehrai*, *Styphlodora dentipharyngeata*.

Ptyas mucosus.—*Encyclometra asymmetrica*, *E. colubri-murorum*, *Mesocoelium sociale*, *Ommatobrephus lobatum*, *Ptyasorchis mehrai*, *Styphlodora lachesidis*, *S. nicolli*.

Spilotes pullatus.—*Otylotretus rugosus*, *Styphlodora condita*.

Storeria dekayi.—*Brachycoelium salamandrae*, *Mesocoelium americanum*.

Thamnophis eques.—*Diplostomulum vegrandis*.

Thamnophis marci.—*Agamodistomum marci*, *Diplostomulum vegrandis*.

Thamnophis ordinoides.—*Agamodistomum* sp. Sumwalt 1926, *Lechriorchis plesientera*, *L. propria*, *Ophioxenos dienteros*, *Paralechriorchis syntomentera*.

Thamnophis sauritus.—*Diplostomulum vegrandis*, *Lechriorchis primus*, *L. tygarti*, *zeugorchis eurinus*.

Thamnophis sirtalis.—*Agamodistomum marci*, *A. ordinata*, *A. sp.* Sumwalt 1926, *Alaria intermedia*, *Diplostomulum sirtale*, *D. vegrandis*, *Lechriorchis plesientera*, *L. primus*, *L. tygarti*, *Ophioxenos dienteros*, *Paralechriorchis syntomentera*, *Renifer brachyoesophagidius*, *R. megametricus*, *Tetracotyle serpentis*, *Zeugorchis aequatus*, *Z. eurinus*.

Thamnophis sp.—See "Garter snake", above.

Xenodon merremii.—*Opisthognathus philodryadum*.

Family CROTALIDAE

Agkistrodon mokasen.—*Neorenifer kansensis*, *Renifer ancistrodontis*.

Agkistrodon piscivorus.—*Leptophyllum tamiamiensis*, *Neorenifer kansensis*, *N. serpentis*, *Paurophyllum megametricus*, *Renifer laterotrema*, *Styphlodora agkistrodontis*, *S. aspina*, *S. floridantis*.

Sistrurus miliarius.—*Neorenifer glandularis*, *N. kansensis*.

Trimeresurus atrox.—*Paradistomum lutsi*, *Styphlodora lachesidis*.

Trimeresurus newi.—*Heterocoelium heterocoelium*, *Opisthognathus afraniol*.

Family ELAPIDAE

Denisonia superba.—*Dolichopera macalpini*, *Hemirurus* sp. Johnston 1912.

Elaps sp.—*Haplometroides buccicola*.

Naja hannah.—*Xenopharynx solus*.

Naja naja.—*Cyclorchis amphileucus*.

Naja naja.—*Ommatobrephus lobatum naffi*, *Styphlodora naja*, *Xenopharynx solus*.

Naja sp.—*Harmotrema eugari*.

Notechis scutatus.—*Dolichopera macalpini*.

Pseudochis porphyriacus.—*Hemirurus* sp. Johnston 1912.

Family HOMALOPSIDAE

Enhydryis enhydryis.—*Mesostephanus burmanicus*.

Enhydryis chinensis.—*Encyclometra asymmetrica*, *Pharyngostomum cordatum*.

Enhydryis plumbea.—*Encyclometra asymmetrica*, *E. microrchis*.

Family HYDROPHIIDAE

Distsira sp.—*Lectiochirium dilleni*.

Lapemis hardwickii.—*Opisthorchis ophidiarum*.

Laticauda laticauda.—*Harmotrema laticaudae*, *Oesophagicola laticaudae*.

Family PYTHONIDAE

Morella argus.—*Dolichopera parvula*.

Python molurus.—*Distoma* sp. Sonsino 1890, *Styphlodora horrida*, *S. similis*.

Python reticulatus.—*Styphlodora renalis*.

Family VIPERIDAE

Causus rhombeatus.—*Opisthoglyphe magnus*.

Vipera aspis.—*Opisthoglyphe adolescens*.

Vipera berus.—*Agamodistomum viperae*, *Strigea strigis*, *Tetracotyle crystallina*.

UNCLASSIFIED SERPENTES

"Adder".—*Macrodera longicollis*.

"Couleuvre d'Amérique".—*Paralechthorichis bosci*.

Blacksnake (In Australia).—*Cercaria nigrocystica*.

Unidentified snakes.—*Strigea vaginata*, *Dolichopera macalpini*.

Order TESTUDINATA

Family CHELONIIDAE

Caretta caretta.—*Adenogaster serialis*, *Cricocephalus albus*, *Cymatocarpus undulatus*, *Diaschistorchis ellipticus*, *D. pandus*, *Distoma pachyderma*, *D. testudinis*, *Enodiotrema acarlaeum*, *E. instar*, *E. megachondrus*, *E. reductum*, *Epibattra crassa*, *Hapalotrema loossi*, *H. mistroides*, *H. synorchis*, *Learedius europaeus*, *Lophotaspis vallet*, *Orchidasma amphiorchis*, *Pachypsolus irroratus*, *P. ovalis*, *P. tertius*, *Phyllodistomum cymbiforme*, *Pleurogonius trigonocephalus*, *Polystomoides ocellatum*, *Pyelosomum longicaecum*, *Rhytidodes gelatinosus*, *R. secundus*, *Schizamphistomum scleroporium*, *Styphlotrema solitaria*.

Caretta olivacea.—*Orchidasma amphiorchis*.

Chelonia japonica.—*Cricocephalus albus*, *Diaschistorchis lateralis*, *Medioporus cheloniae*, *Pleurogonius linearis*, *Pronocephalus obliquus*.

Chelonia mydas.—*Amphiorchis amphiorchis*, *Angiodyctium parallelum*, *Calycodes anthos*, *Charazicephalus robustus*, *Cricocephalus albus*, *C. megastomus*, *C. resectus*, *C. ruder*, *Cymatocarpus solearis*, *Desmogonius desmogonius*, *Dexterodaris proteus*, *Diaschistorchis pandus*, *Distoma testudinis mydae*, *Enodiotrema megachondrus*, *Glyphicephalus lobatus*, *G. solidus*, *Learedius europaeus*, *L. learedi*, *L. similis*, *Metacetabulum invaginatum*, *Microscaphidium aberrans*, *M. reticulare*, *Monostoma pseudamphistomum*, *M. sp. Braun 1901*, *Neospirochis schistosomatoides*, *Octangium hasta*, *O. sagitta*, *O. takanoi*, *Orchidasma amphiorchis*, *Pachypsolus irroratus*, *Phyllodistomum cymbiforme*, *Pleurogonius bilobus*, *P. linearis*, *P. longiusculus*, *P. minutissimus*, *Polyangium linguatula*, *P. miyajimai*, *Pyelosomum cochlear*, *Rhytidodes gelatinosus*, *Rhytidodoides intestinalis*, *R. similis*, *Schizamphistomoides spinulosum*, *Schizamphistomum scleroporium*, *Spirochis parvum*.

Bretmochelys imbricata.—*Amphiorchis lateralis*, *Amphistoma cheloniae imbricatae*, *Cricocephalus albus*, *Diaschistorchis pandus*, *Medioporus microphallus*, *Pachypsolus brachus*, *Pleurogonius osakii*, *P. trigonocephalus*, *Pyelosomum posterorchis*.

Family CHELYDRIDAE

Chelydra serpentina.—*Allosostomoides parvum*, *Auridistomum chelydrae*, *Ceroeria ramona*, *Cotylopsis stunkardi*, *Eustoma chelydrae*, *Hapalorhynchus*

gracilis, *Heronimus chelydrae*, *Polystomoidella oblongum*, *Polystomoides coronatum*, *Spirorchis haematobium*, *S. magnitestis*, *S. minutum*, *Telorchis corti*, *T. stagularis*.

Macrochelys temminckii.—*Lophotaspis interiora*.

Family CHELYIDAE

Chelodina longicollis.—*Neopolystoma chelodinae*.

Chelys fimbriata.—*Acanthostomum scyphocephalum*, *Nematophila grande*.

Elseya dentata.—*Amphistoma* sp. Krefft 1871.

Emydura australis.—*Aptorchis aequalis*.

Emydura latisternum.—*Aptorchis aequalis*, *Sigmaopera cincta*.

Hydraspis geoffroyana.—*Nematophila grande*.

Hydraspis gibba.—*Nematophila grande*.

Hydraspis schoepfii.—*Nematophila grande*.

Rhinemys nasuta.—*Nematophila grande*.

Family DERMATEMYIDAE

Dermatemys mawii.—*Dermatemytrema trifoliata*, *Octangioides skrjabini*, *Patagium brachydelphium*, *Schizamphistomoides tabascensis*, *Telorchis* sp. (Heymann 1905).

Family DERMOCHELYIDAE

Dermochelys coriacea.—*Astrorchis renecapite*.

Family EMYDIDAE

Batagur baska.—*Stunkardia dilymphosa*.

Chinemys reevesi.—*Telorchis clemmydis*, *T. geoclemmydis*, *T. konoi*.

Chrysemys picta.—*Allosostomoides parvum*, *Eustomos chelydrae*, *Heronimus chelydrae*, *Neopolystoma orbiculare*, *Polystomoidella oblongum*, *Polystomoides coronatum*, *P. oris*, *Protenes angustus*, *Spirorchis artericola*, *S. elegans*, *S. elephantis*, *S. innominata*, *Telorchis attenuatus*, *T. corti*.

Clemmys caspica.—*Telorchis solivagus*.

Clemmys guttata.—*Telorchis corti*.

Clemmys insculpta.—*Spirorchis innominata*, *Telorchis corti*.

Clemmys japonica.—*Neopolystoma exhamatum*, *Polystomoides japonicum*, *Telorchis clemmydis*.

Clemmys leprosa.—*Telorchis gabesensis*, *T. solivagus macrocanus*.

Clemmys marmorata.—*Telorchis corti*.

Cuora amboinensis.—*Telorchis cyclemidis*.

Detrochelys reticularia.—*Telorchis corti*.

Emmys blandingii.—*Heronimus chelydrae*, *Spirorchis blandingi*, *S. innominata*.

Emys orbicularis.—*Astiotrema emydis*, *Distoma testudinis*, *Hapalotrema polesianum*, *Patagium lazarevi*, *Polystomoides ocellatum*, *Telorchis parvus*, *T. poirieri*, *T. solivagus*, *T. stossichti*.

Geoemyda grandis.—*Chiorchis purvisi*.

Geoemyda punctularia.—*Heronimus chelydrae*.

Geoemyda spengleri.—*Mesocoelium geoemydae*, *Polystomoides megavum*.

Graptemys geographica.—*Ootylaspis cokeri*, *Heronimus chelydrae*, *Macrovestibulum eversum*, *Polystomoides coronatum*, *Spirorchis artericola*, *Telorchis corti*.

Graptemys pseudogeographica.—*Spirorchis artericola*, *S. scripta*.

Hardella thurgi.—*Diaschistorchis gastricus*, *Spirorchis hardellii*, *S. sanguina*.

Kachuga dhongoka.—*Astiotrema loosii*, *Diaschistorchis gastricus*, *Glossinetra orientalis*, *Neopronocephalus gangeticus*, *N. triangularis*, *Spinometra gangeticus*, *S. kachugae*, *Spirorchis hardellii*, *S. orientalis*, *Telorchis dhongokii*, *T. pellucidus*.

- Kachuga kachuga*.—*Polystomoides kachugae*.
Kachuga smithii.—*Diaschistorchis pandus*, *Microderma elinguis*.
Kachuga tectum.—*Diaschistorchis gastricus*, *Distoma apollanum*.
Malaclemys centrata.—*Neopolystoma orbiculare*.
Malaclemys pileata.—*Telorchis corti*.
Morentia ocellata.—*Neopronocephalus mehri*, *Stunkardia dilymphosa*.
Oocadia sinensis.—*Diaschistorchis takahashii*, *Hapalorhynchus* sp. Ozaki
 1932, *H. yoshidai*, *Leurosoma orientale*, *Polystomoides microrchis*, *P. ocellata*.
Pseudemys floridana.—*Allosostomoides parvum*, *Cephalogonimus compactus*, *Polystomoides multifalx*, *Spirorchis artericola*, *S. blandingioides*, *S. innominata*, *S. scripta*.
Pseudemys rubriventris.—*Neopolystoma orbiculare*.
Pseudemys scripta.—*Allosostoma magnum*, *Heronimus chelydrae*, *Macrovestibulum obtusicaudum*, *Neopolystoma domitillae*, *N. orbiculare*, *Polystomoides coronatum*, *Proteneis angustus*, *Spirorchis artericola*, *S. blandingioides*, *S. elegans*, *S. pseudemyae*, *S. scripta*, *Telorchis corti*, *T. distimilis*, *T. medius*, *T. robustus*, *T. singularis*, *Unicaecum distimilis*, *U. ruzskowskii*.
Terrapene carolina.—*Neopolystoma terrapensis*, *Telorchis medius*, *T. robustus*.

Family KINOSTERNIDAE

- Kinosternon baurii*.—*Polystomoidella whartoni*.
Kinosternon hirtipes.—*Heronimus chelydrae*, *Polystomoidella oblongum*, *P. whartoni*.
Kinosternon scorpioides.—*Diplostomum brevis*, *D. kinosterni*.
Kinosternon steindachneri.—*Polystomoidella whartoni*, *Telorchis diminutus*, *T. medius*.
Kinosternon subrubrum.—*Heronimus chelydrae*, *Polystomoidella oblongum*, *P. whartoni*, *Telorchis diminutus*, *T. medius*.
Sternotherus carinatus.—*Hapalorhynchus stunkardi*, *Polystomoidella oblongum*, *Telorchis medius*.
Sternotherus odoratus.—*Hapalorhynchus reelfoeti*, *Heronimus chelydrae*, *Pleorchis mollis*, *Polystomoidella oblongum*, *Telorchis medius*, *T. robustus*.

Family PELOMEDUSIDAE

- Pelomedusa subrufa*.—*Schizomphistomoides constrictus*.
Podocnemis dumerilliana.—*Nematophila grande*.
Podocnemis expansa.—*Braunotrema pulvinata*, *Haltrema avitellina*, *Nematophila grande*, *Orchidasma amphiorchis*, *Telorchis bifurcatus*, *T. hagmanni*.
Podocnemis tracasa.—*Helicotrema spirale*, *Nematophila grande*.

Family TESTUDINIDAE

- Kinixys bellitana*.—*Mesocoelium carli*, *Pharyngostomum congolense*.
Testudo graeca.—*Eudiotrema megachondrus?*, *Telorchis aculeatus*.
Testudo tabulata.—*Helicotrema spirale*.
Testudo sp.—*Herpetodiplostomum testudinis*.

Family TRIONYCHIDAE

- "*Amyda*".—*Cephalogonimus vesicaudus*.
 "*Aspidonectes*".—*Cephalogonimus vesicaudus*.
Ochira indica.—*Astiotrema indica*.
Cyclanorbis senegalensis.—*Cephalogonimus lenoiri*, *Cotyliaspis lenoiri*.
Lissemys punctata.—*Astiotrema loocsi*, *A. rami*, *Bilorchis indicum*, *Cephalogonimus amphiumae*, *O. burmanica*, *O. emydalis*, *O. mehri*, *O. minutum*, *Hapalorhynchus lysianus*, *H. odhnerensis*, *Kaurma longicirra*, *Lissemys indica*.

Trionyx ferox.—*Neopolystoma orbiculare*, *N. rugosa*, *Polystomoides coronatum*, *Teloporja aspidonectes*, *Vasotrema amydae*, *V. attenuatum*, *V. robustum*.

Trionyx gangetica.—*Astiotrema elongatum*, *Cephalogonimus amphiumae*, *Hapalorhynchus indicus*.

Trionyx japonica.—*Astiotrema orientale*, *Cephalogonimus japonicus*, *Kaurna orientalis*.

Trionyx mutica.—*Crepidostomum cooperi*, *Opisthorchis ovalis*.

Trionyx sinensis.—*Aspidogaster conchicola*, *Astiotrema amydae*, *A. fuk-uti*, *Ootylaspsis sinensis*, *Lophotaspis orientalis*.

Trionyx spinifera.—*Hapalorhynchus evaginatus*, *Opisthorchis ovalis*, *Polystomoides coronatum*, *Teloporja aspidonectes*, *Vasotrema amydae*, *V. attenuatum*, *V. longitestis*, *V. robustum*.

Trionyx triangulis.—*Astiotrema odhneri*, *A. renifera*, *Cephalogonimus lenoiri*, *Ootylaspsis lenoiri*.

Unclassified Testudinata

Unidentified species.—*Oalycodes anthos*, *Learedius europaeus*, *Monostoma macrorchis*, *Neopolystoma orbiculare*, *Polystomoides coronatum*, *Proterometra sagittaria*, *Rhytidodes gelatinosus*, *Telorchis pieroticus*.

Unclassified Reptilia

A reptile?—*Plagiorchis serpenticola*.
