AUTHOR'S NOTES

Rita S. G. Anderson, M.S., has held numerous positions in emergency management, as chair of the Kay County Local Emergency Planning Committee, member of the Alliance for Uniform Hazmat Transportation Procedures for the U.S. Department of Transportation, Region VI Secretary of the National Coordination Council of Emergency Managers, liason to the Alliance for Uniform Hazmat Transportation Procedures, and environmental officer for the Kaw Indian Tribe. She is currently a consultant and grants writer in Louisiana.

Megan Benson is a History Department graduate student and teaching assistant at the University of Oklahoma. Her area of interest includes nineteenth-century American cultural history. Previously she has received a research grant for her work on gender and race in the Populist movement.

Michael Connelly, Associate Professor of Political Science and Senior Research Analyst on the Oklahoma Truth in Sentencing Policy Advisory Commission, received his Ph.D. from the University of Missouri. His current research interests include state budget and policy areas including education and criminal justice.

Rick Farmer is a doctoral candidate at the University of Oklahoma where he teaches political science and does research with the Science and Public Policy Program. The tentative title of his dissertation is "Legislative Adaptation to Term Limits in Oklahoma." He received his Bachelor of Arts at Northeastern State University in 1985.

Erich G. Frankland is a political science graduate student at the University of Oklahoma.

James J. Lawler, Ph.D., J.D., is Professor of Political Science at Oklahoma State University, a member of the Pennsylvania Bar and a certified mediator for the Oklahoma courts. His specialities are environmental law, American politics and public policy. His current research interests include citizen participation and dispute resolution in local environmental controversies.

Michael Wheeler, Assistant Professor of Geography and Gerontology at Southwestern Oklahoma State University, received his Ph.D. from the University of North Carolina, Chapel Hill. His current research interests include the aging prison population, and how the elderly define residence.

Beverly Wheeler, a programmer and systems analyst currently employed at the Southwestern Oklahoma State University Computer Services Department, received her M.B.A. from Southwestern Oklahoma State University. Her current research activities include data processing and quantitative support for various research projects.
